Overview

OCALI, a project of the Educational Service Center of Central Ohio (ESCCO), is a recognized global leader in creating and connecting resources and relationships to ensure that people with disabilities have the opportunity to live their best lives for their whole lives.

One of the ways that OCALI inspires change and promotes access is through its marquee annual event that brings together researchers, experts, practitioners, parents, and families to collaborate and share ideas and best practices. OCALICONLINE 2024 marks the fifth year of hosting the event exclusively online, and the 18th year of providing participants with ample opportunities to transform inspiration into action.

The OCALICONLINE 2024 live event runs **November 19-22, 2024**, with video-on-demand continuing through **January 10, 2025**.

Several thousand participants from across the nation and around the world will come together this fall to learn, network, and share research, best practices, and resources to support people with autism spectrum disorder, sensory disabilities, and low-incidence disabilities across the lifespan.

Whether working across the lifespan, across agencies, or across the world, OCALI's goal remains the same: *To deliver a world-class learning experience that inspires change and promotes access to opportunities for people with disabilities.*
