

COVID-19 Employee Self-Check Health-Screening Form

Employee name: _____

Job title: _____

Supervisor's name: _____

Date	Body temperature	Respiratory symptoms? (Y/N)	Screened by

If an employee's body temperature is at or above 100 degrees Fahrenheit, the employee must stay at home or be sent home immediately.

- An employee should remain home or who was sent home with a fever can return to work when:
- He or she has had no fever for at least three days without taking medication to reduce fever during that time; AND
 - Any respiratory symptoms (cough and shortness of breath) have improved; AND
 - At least ten days have passed since symptoms began.

The employee may return to work earlier if a doctor confirms the cause of the employee's fever or other symptoms is not COVID-19 and provides a written release for the employee to return to work.
