

Internal Posting 8th Grade Science

POSTED: August 5, 2022
REPORTS TO: Middle School Director
DEADLINE TO SUBMIT INTENT: Until Filled
STARTING DATE: August 11th, 2020

QUALIFICATIONS:

Professional Experience and Personal Attributes:

The Global Impact STEM Academy seeks teachers committed to classroom leadership and committed to the values of excellence in STEM learning and instructional innovation.

The successful candidate will have demonstrated experience in emerging STEM disciplines and be knowledgeable of current trends, best practices, and innovations in STEM education, including national model standards in STEM education.

The successful candidate will have a strong foundation in working with different ethnic groups, cultures and socio-economic groups and should have successful experiences in fostering diversity as a classroom leader.

The successful candidate will have the skills necessary to design, monitor, and support inquiry-based instructional models.

Required Professional Credentials:

Candidates must hold a current teaching license to teach 8th grade science or 7-12 Integrated Science license.

Candidates are required to have a record free of criminal violations that would prohibit public school employment. They must also pass a BCI and Local – FBI background check.

A Master's Degree from an accredited institution of higher education in content area is preferred.

BACKGROUND:

The Global Impact STEM Academy is a highly committed and diverse public school that serves students in grades 7-12. It is located in Springfield, Ohio. It provides a world class STEM education, including a foundation in the areas of food, fuel, fiber, bioscience, energy, and the environment. Through a combination of leading-edge technologies, innovative pedagogy that includes inquiry-based and experiential learning opportunities for students, the Global Impact prepares students to meet the demands of the 21st century economy and higher education. The curriculum is designed to immerse students in a rigorous problem and project-based learning environment that engages their interest in STEM disciplines and teaches them to work across disciplines and to be problem solvers and innovators.

Global Impact delivers to students a comprehensive curriculum with intense exposure to how STEM disciplines are applied in the 21st century workplace. The school enhances students' post-secondary opportunities by expecting them to master a rigorous curriculum and by instilling in each student a clear understanding of their post-secondary opportunities. The excitement and creativity in Global Impacts' program and the exceptional commitment of faculty and staff gives students the opportunity to find their intellectual passion and to embrace the academic rigor necessary to achieve their goals.

COMPENSATION: Compensation is based on salary range. Consideration will be given to level of education and experience.

APPLICATION PROCESS: Send a statement of interest to Jamison.
