### JOIN THE NEXT COHORT

Beginning in January, we are launching a STEM+ FOR ALL cohort focused on supporting individuals who seek to change their careers to be intervention specialist teachers. Each prospective teacher will receive ongoing training and mentoring, along with financial support, to obtain licensure as a K-12 moderate-intensive intervention specialist.

## PUT YOUR PLAN INTO ACTION

Applications to the online graduate program in Special Education for students with moderate-intensive educational needs are accepted through one central online application portal at <https://www.ohio.edu/graduate/apply>. Application materials include two letters of recommendation, a writing sample of two pages indicating your commitment to teaching and highlighting your knowledge and/or accomplishments in STEM+ fields, and unofficial transcripts from your Baccalaureate degree program. The priority deadline is December 1 and the absolute deadline is January 1. Because space is limited in this program, applicants are encouraged to apply by the priority deadline.
