

Suggested Use of Title III Funds

What are Title III funds?

Title III funds are federal monies issued to states to support instruction of English learners. These funds are authorized by ESEA as reauthorized by ESSA. Federal funds are supplemental and cannot supplant state and local funds that pay for the legal obligations districts have to English learners. Legal obligations include identifying English learners, assessing with OELPA, providing English instruction, and language assistance to parents.

Below is a list of possible items that can be paid for with Title III funds. In all cases, the funds cannot supplant an activity that was previously paid for by state and local funds.

The suggestions below are not endorsements of any products.
