Group Chat - Session Text 3/31/20

Graduation Advisory Systems

MARCY RAYMOND   MAR 26, 2020 06:32AM

ory for Graduation Progress   March, 2020

visory system was developed to ensure that every student has support for his or he
mic, social, and emotional growth. The primary purpose of the Advisory Program
d: first, to give each student an adult advocate and second, to create a smaller
unity within the larger community for each child while in a remote setting. There a
verarching reasons for implementing advisory systems for Seniors at this time:
otivation – building sustained relationships with students, exploring areas of interes
nd related careers, addressing barriers to graduation;
ustomization – helping students set short and long term goals, track progress, and
xperience success in remote performances, in job settings, and in community
rvices;
qualization – broadening exposure to college and career options, providing high
ouch/high tech decision support for postsecondary planning for all students.
              "Core and More: Guiding and Personalizing College & Career Readiness" in May

visory program provides opportunities for support and collaboration through the
pment of a unique bond between the advisor and each advisory member.   For
e settings, there are two general modes that can be done separately or combined
oproach.

emote Setting for Individual Advisory: In a Remote setting, advisors meet with their
udents once weekly by phone, Google Hangout or Zoom. This is a one-on-one to
ase with the student. Every student should be assigned an advisor. This relationship
